DETAILED ACTION

Allowable Subject Matter

1. Claims 1-9, 11-13 and 19 are allowed
2. The following is an examiner's statement of reasons for allowance: Regarding claims 1-9 and 19, the prior art of record fails to fairly teach or suggest a transfer mechanism as described above further comprising a position detecting linear scale installed on the moving part and extending in a moving direction of the moving part and a plurality of position detecting sensors installed at a height corresponding to the linear scale on an inner surface of the casing, the position detecting sensors being disposed in the moving direction of the moving part such that a distance between two neighboring is shorter than a length of the linear scale. Further, no other properly combinable art was located that provided the missing teaching(s) along with the requisite motivation.
3. Regarding claims 11-13, the prior art of record fails to fairly teach or suggest a main transfer mechanism as claimed as part of a multi-chamber processing system that also comprises: an auxiliary transfer mechanism, a load lock mechanism, an entrance transfer mechanism, a cassette station, a plurality of individual transfer mechanisms and a plurality of processing apparatus all configured and positioned with respect to one another as recited. Further, no other properly combinable art was located that provided the missing teaching(s) along with the requisite motivation(s) for combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
